Additional information

- There is a minimum price (60 USD or 55 EUR + postage and packing) fixed for clients who transfer the money from abroad.
- The basic price of orders without exact reference code is 3500 HUF. If the preparation of material takes more than one hour, the additional cost is 2500 HUF/hour, but researchers have been informed about it previously.
- Usual delivery date is 20 business days for non-digital and also for digital copies. In all distinct cases (ex: more than 50 pieces or requiring special photographic technique) the limit for delivery is determined individually.
- In case of cash on delivery (possible in Hungary only) postage and package costs are added to the order. NAH does not take any responsibility for damages caused during traditional postage (large envelop). Safe (tear- and winkle-free) wrapping has to be asked by the client separately. All costs will be borne by the customer.
- Digital photos are downloadable from the server of National Archives of Hungary with completed wire transfer. In this case we post the invoice to the given address (postal price is included).
- Our services can be cancelled in one business day, beyond that date the payment must be delivered.
- The resolution type must be marked unless basic resolution (200 dpi, JPG) is the default.
- Please note that the prices of copies are defined not by sheets but pages.
- Maps and plans larger than A1 should be microfilmed in more than one part. In addition documents larger than 86x60 cm must be scanned in different parts.
- Researchers need to ask for **permission of publication** of digital or photocopies of the archival material of the National Archives of Hungary in an official form. The price of permission is determined individually. Publication fee is not included in the price of making digital or photocopies.
- Orders have to contain the following data: name, contact details, the type of the copies, the data medium and the delivery, the exact reference code(s), including page positions (recto or verso). - Using private digital camera for microfilms (with the exception of microfilm copies of parish registers) is allowed as long as the researcher possesses valid photo ticket
- Photocopies cannot be made about the following documents: maps, drawings, charters, seals and injured, moldy or acid papers etc.
- If the requested document is available on microfilm or on digital copy, the ordered copy must be made of them, not the original. If both microfilm and digital copies are available then the digital copy is preferred.
